AICTE FDR Portal — Demo PDF Pack Index

Document inventory, workflow mapping, and important limitations

DEMO / SIMULATED DOCUMENT — NOT A REAL BANK CERTIFICATE, AICTE ORDER, LEGAL AFFIDAVIT OR VALID FINANCIAL INSTRUMENT.

Package contents

Group	Use in demo
File group	Purpose
01–09 FDR fixtures	Synthetic FDR-shaped PDF for every instrument in MOCK_INSTRUMENTS; use for upload/OCR demos.
10 Affidavit-6	Unsigned template aligned to the supplied handbook excerpt for release workflow testing.
11 Release request	Institution request letter for REL-2026-0012 / ■30 lakh Union Bank fixture.
12 Refund request	Institution request letter for REL-2026-0015 / ■50 lakh Canara Bank fixture; documents pending.
13 LoA/EoA fixture	Illustrative latest approval supporting document, clearly marked synthetic.
14 Discrepancy report	Shows PNB 5-day issue-date mismatch and maturity-date offset.
15 Integration timeout report	Shows simulated HTTP 504 without falsely declaring the instrument invalid.
16 Release clearance tracker	Shows 2 cleared and 2 pending clearances for REL-2026-0012.
17 Renewal linkage report	Shows ICICI predecessor/successor relationship.

Important source alignment

The supplied Approval Process Handbook 2024–2027 excerpt (Clause 6.46) lists the institution request letter, Affidavit-6, copy of the FDR / relevant payment proof, and latest LoA/EoA among the release documents, and describes clearances before an NOC is issued. The affidavit excerpt says the portal-generated common affidavit should be printed on ■100 non-judicial stamp paper/e-stamp paper and sworn before an authorized officer. These files are for a simulated demo only; consult the current official handbook and actual portal requirements for real cases.

Implementation note

All demo data values are taken from the supplied mock-data fixture where possible. Bank API outcomes and bank responses are simulated. The synthetic PDFs are not real financial instruments, not authentic AICTE records, and not suitable for filing.
